

## MATHEMATICS OF THE USSR – SBORNIK

Tom 97 (139), Nos. 1–4, 1975

Volume 26, Nos. 1–4

May–August, 1975

Pages 1–578

## INDEX OF AUTHORS

Aleev, R. Ž. <i>Finite groups whose Sylow 2-subgroups have cyclic commutator subgroups</i> .....	295
Arutjunjan, A. A. See Engibarjan, N. B. and Arutjunjan, A. A.	
Babin, A. V. <i>On global solvability of nonlinear parabolic boundary-value problems</i> .....	89
Barbaumov, V. E. <i>Algebraic automorphisms and PI-algebras</i> .....	55
Beskorovaňnaja, L. L. <i>Canonical A-deformations preserving the lengths of lines of curvature on a surface</i> .....	151
Danilov, V. I. <i>Polyhedra of schemes and algebraic varieties</i> .....	137
Engibarjan, N. B. and Arutjunjan, A. A. <i>Integral equations on the half-line with difference kernels, and nonlinear functional equations</i> .....	31
Gončar, A. A. <i>On convergence of Padé approximants for some classes of meromorphic functions</i> .....	555
Gusarov, A. L. <i>On a sharp Liouville theorem for solutions of a parabolic equation on a characteristic</i> .....	349
Guščin, A. K. <i>Some properties of a generalized solution of the second boundary value problem for a parabolic equation</i> .....	225
Južakov, A. P. <i>On an application of the multiple logarithmic residue to the expansion of implicit functions in power series</i> .....	165
Korobeinik, Ju. F. <i>On a dual problem. I. General results. Applications to Fréchet spaces</i> .....	181
Laptev, S. A. <i>On the behavior for large values of the time of the solution of the Cauchy problem for the equation <math>\partial^2 u / \partial t^2 - \partial^2 u / \partial x^2 + \alpha(x)u = 0</math></i> .....	403
Marčenko, V. A. and Ostrovskii, I. V. <i>A characterization of the spectrum of Hill's operator</i> .....	493
Mel'nik, Ju. I. <i>On the representation of regular functions by Dirichlet series in a closed disk</i> .....	449
Muravej, L. A. <i>Analytic continuation with respect to a parameter of the Green's functions of exterior boundary value problems for the two-dimensional Helmholtz equation. I</i> .....	373
Novodvorskii, M. E. See Pjateckii-Šapiro, I. I. and Novodvorskii, M. E.	
Ostrovskii, I. V. See Marčenko, V. A. and Ostrovskii, I. V.	

Ovseevič, A. I. <i>Schemes of CM type</i> .....	105
Pašenkov, V. V. <i>Boolean models and some of their applications</i> .....	1
Pavlov, B. S. <i>Calculating losses in scattering problems</i> .....	71
Petrenko, V. P. <i>The growth of integral curves of finite lower order</i> .....	427
Petrovič, A. Ju. <i>Properties of Riemann sums for functions representable by a trigonometric series with monotone coefficients</i> .....	331
Pjateckii-Šapiro, I. I. and Novodvorskii, M. E. <i>Letter to the editor</i> .....	294
Sačkov, V. N. <i>Systems of distinct representatives for random sets</i> .....	365
Šananin, N. A. <i>On local solvability of equations of quasi-principal type</i> .....	458
Seničkin, V. N. <i>On the approximation of functions of several complex variables on fat compact subsets of <math>C^n</math> by polynomials</i> .....	260
Skvorcov, V. A. <i>Example of a Walsh series with a subsequence of partial sums converging everywhere to zero</i> .....	471
Storoženko, È. A. <i>Embedding theorems and best approximations</i> .....	213
Turaev, V. G. <i>The Alexander polynomial of a three-dimensional manifold</i> .....	313
Tyškevič, R. I. <i>Relations admitting a transitive group of automorphisms</i> .....	245
Žižčenko, A. B. <i>On the homological structure of a fibering of an algebraic variety with isolated singularities</i> .....	280
